

# Breville BKC600XL Water Valve Replacement

Replacing the water valve should it fail to work.

Written By: Antonio

## INTRODUCTION

Replacing the water valve should it fail to work.

### TOOLS:

- [Phillips #0 Screwdriver](#) (1)
- [Macbook Pro and Air 5-Point Pentalobe Screwdriver](#) (1)

### PARTS:

- [Breville BKC600XL Water Valve](#) (1)
  - [Tying Band](#) (1)
-

## Step 1 — "Bottom" Black Shell Piece

- Remove the following 2 screws:
    - Two 12mm black Truss Phillips screws.
- ☑ Reminder for reassembly; This bottom piece is first to be screwed back on.

## Step 2 — "Top" Black Shell Piece

- Remove the two 12mm Phillips screws.

## Step 3 — Silver Casing

- Remove the grey plastic casing.
- Remove the two 12mm hexagonal screws.

## Step 4 — Water Valve

- Cut the band connecting the hose to the water valve.
- Remove the water valve.
- ☑ Reminder for reassembly; You will need a new band to tie the hose back to the water valve.

To reassemble your device, follow these instructions in reverse order.
